

THE INTERNET OF THINGS (IOT) SERVICE

What is IoT?

The Internet of Things (IoT) is the interconnection via the Internet of computing devices embedded in everyday objects, enabling them to send and receive data.

What are we offering?

[Information Services](#) at the University is setting up a pilot IoT network using [LoRaWAN](#) technology to help you easily run your IoT project.

The network is a shared infrastructure. Open to all staff and students and supporting learning and research.
